Remove Punctuation from a String

Code

In [1]:
```python
string=input("Enter the string:")
punchuation=['.',',','!','?','/']
for n in range(0,len(string)):
    if string[n] in punchuation:
        n+=1
    else:
        print(string[n],end='')
        n+=1
```

```
Enter the string:Hey! Good Morning, How are you?
Hey Good Morning How are you
```

Algorithm

```
1. START.
2. Input a string.
3. Initiate a list 'punchuation' with punctuations.
4. Access string CharacterWise.
5. If character is not in list print the character.
6. STOP.
```
